

LUIS FERNANDEZ

Frontend Developer

EXPERIENCE

Feb.bv 2021 - Jun. 2021

Nelumbo

FRONTEND DEVELOPER - THEBIGGESTASK

Responsive website development, working with a design team; where I was in charge of designing and programming the website with ReactJS.

Nov. 2020 - Present

Nelumbo

FRONTEND DEVELOPER - IDPSANTÉ

Refactoring the website administrator, for this I have:

- Organized files in folders with consistent names.
- Standardized the call to the endpoints to facilitate the debugging of the code.
- Eliminated components, and files unnecessary for the operation of the site.
- Migrated react classes to hooks to improve compilation speed.

Mar. 2020 - Jun. 2020

Globextours

FULL STACK DEVELOPER - GLOBEXTOURS.COM

On this website I was challenged to carry out the entire website from the database model, requirements analysis, backend implementation with laravel to visual development with HTML, CSS and Javascript.

Nov. 2019 - Mar. 2020

Heraclea.io

WORDPRESS DEVELOPER - SITIOS WEB

Development of multiple websites in wordpress. Given some mockups I used the elementor layout with several plugins so that the site was 100% manageable by users.
